

Henry B – Realize

Time has gone by...
no matter, breath's so strong,
just buying your eyes,
would you drop into my soul?
Unlike before
rhythm makes me alive again,
contigo siento
pasión ya te puedo agarrar

You can realize that dreams would never wake
Realize that love will be the way
You are the one, you know, just like music, (you) beat within my soul
You are the one, you know, sweet like nothing that I tried before

Light had shined bright
but mind was empty and cold,
now the time is right,
could you embrace me when I'll fall?
Just like a silk rose
shiver makes me alive again,
contigo siento
pasión ya te puedo agarrar

You can realize that dreams would never wake
Realize that love will be the way
You are the one, you know, just like music, (you) beat within my soul
You are the one, you know, sweet like nothing that I tried before

Now I know, love is in your eyes (music beats within my soul)
Within my soul... sweet like nothing that I tried before

Time has gone by...
no matter, breath's so strong,
just buying your eyes,
your love will be the way

You are the one, you know, just like music, (you) beat within my soul
You are the one, you know, sweet like nothing that I tried before
You are the one, you know, music beats within my soul
You are the one, you know, sweet like nothing that I tried before
